by

Matchy-Matchy is definitively back in fashion with celebrities such as Diane Krueger, Reese Witherspoon and many others showing off a head-to-toe match from their outfits to their make up on the red carpet. Sleek and sophistication are the keywords of this 1950's trend coming back in fashion! Dress, Shoes, hair accessories, jewellery, nails, toes and lips... Everything is colour coordinated with precision giving a look of sleek sophistication and ultimate glamour in perfect subtlety.

However... for those of us who have not got a dedicated stylist at our beck and call, it can be VERY challenging to combine or match our lipstick, nail polish and clothes.... Even for those who own hundreds of these...

Well, your make up is one less thing to worry about. We have taken care of that one for you... so... You pick the dress and the accessories and we do the colour matching for you for your nails, lips and toes.

Match makers are sets of 2 or 3 pieces containing exact colour matched long wearing lipstick and high shine nail polish and Gloss...
